

Comments regarding AOL Time Warner excluding Texas.net .. the same thing has happened here in Monroe / West Monroe, La (Ouachita Parish) i called Time Warner 3 times, and visited once .. all with the manager, Ron Phillips. i asked specifically about negotiating to be on their network. His response was to have his Internet people get in touch with me. This never occurred.

Also, I am now effectively blackballed from commercial advertisements on their cable network. My Advertising agency has tried twice to bug commercials to run on time warner cable and was told that Bayou Internet can not run commercials because we were an Internet Provider. I believe this is a direct violation against FCC policy.

Please feel free to contact me ..

Regards,

Jerry Scroggin
